### About Me

Hi, my name is Aditya singh and I am a Frontend Web-Developer who has expertise in psd to html and converting landing pages.

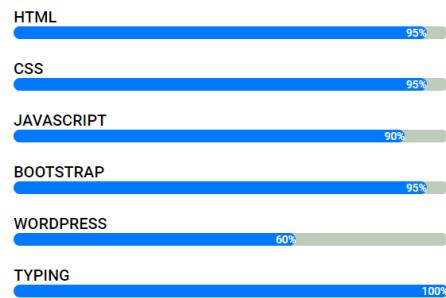

If you are looking for your design files i.e in PSD, XD, FIGMA or SKETCH to html and bootstrap website then you are at the right place.

I have a handsome years of experience in HTML, CSS, JAVASCRIPT and BOOTSTRAP.

I will convert your psd to html in no time.

I am always happy to learn from the new experience that i get from the new clients across the world and will love to work with you.

### Skills

**“Websites promote you 24/7: No employee will do that.”**  
– Paul Cookson

### SERVICES

Services in which I can help

### Frontend Development

I will be your frontend developer for your web development project using HTML, CSS, and JAVASCRIPT (and bootstrap if required)

### PSD to HTML

I will help you making your designs i.e. in psd, xd, figma or other files format to living websites using HTML, CSS, JAVASCRIPT and BOOTSTRAP. I have handsome experience in all the languages given.

### Reviewing Web Apps

I will review the project for you and give an honest opinion about your web app and help you fixing any bugs attached to your project.
